weave in the loose ends

We are now going to crochet the border around the shoulder strap.

Row 1: (White) Secure the thread in the 1st stitch with a sc, add 2 v in the same stitch. Lining of the bag

How much fabric do you need?

You are now going to cut the fabric to size before we start putting the bag together.

Fabric:

- bag parts, 2 patches of fabric from 9.5 x 10.2 inches (24 x 26 cm) (see picture 23 and 24),
- intermediate piece, patch of fabric from 3.2 x 29.2 inches (8 x 74 cm) (see picture 25)
- patches for the D rings for the shoulder strap, 2 patch of fabric from 3.9 x 2.8 inches (10 x 7 cm) (see picture 26)

Cut the piece of fabric to size by pinning the crocheted parts to a piece of fabric and mark this 0.39 inch (1 cm) around the crocheted part with a fabric chalk or pencil. And cut out the parts 1 by 1 in this way. **(measuring that 0.39 inch (1 cm) extra space around the fabric, you need dat space to sew the parts together, see picture 23 and 24 for the bag parts and picture 25 and 27 for the intermediate part).** To measure the length of the intermediate piece of the bag, add together the sides of 9.5 inches (24 cm) and the bottom of 10.2 inches (26 cm), which gives you a length of 29.2 inches (74 cm) (see picture 27)

I did not add lining to the shoulder strap, simply because I did not like it. But if you want to sew lining into the shoulder strap, measure the fabric for this strap exactly as you did with the bag parts.

(picture 42)

Envelope border along the top, we crochet around.

Row 1: 142 sl-st (there may be more or less), doesn't come that close, but don't deviate too much from this number). Use a stitch marker so you know when the row begins and ends. I started in the red part of the bag with a sl-st about 0.39 inch (1 cm) or so from the edge **(see picture 43)**. **Little tip** crochet loosely because you have to pick up the stitches again. Fo and weave in the loose ends.

Put on a new thread in the 1st stitch and then we continue with row 2 **(see picture 44)**

(picture 43)

(picture 44)

Row 2: 142 sc, place a stitch marker in the 1st stitch so you know when your row begins and ends. We continue crocheting in the round.

Row 3: 142 sc,

Row 4: 142 sc,

Row 5: 142 sc, end this row with a sl-st in the first stitch. **(see picture 45 for row 1 to 5)**

(picture 45)

We now move to the back of your work and turn the bag inside out and now crochet a single crochet in each loop, put a stitch marker in the first stitch so you know when your row begins and ends. (see picture 46)

(picture 46)

Row 6: 142 sc,

Row 7: 142 sc,

Row 8: 142 sc

Row 9: 142 sc, end this row with a sl-st in the first stitch. (see picture 47)

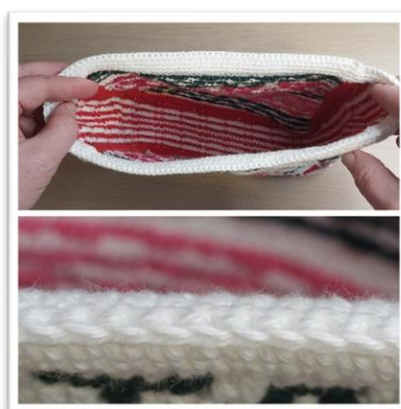

(picture 47)

Row 10: We are now going to close the envelope edge by crocheting both parts together with single crochets, you start at the right side of the bag, so you turn the bag the right way again (see picture 48), 142 sc, end this row with a sl-st in the first stitch. (see picture 49 for the final result)

(picture 48)

(picture 49)

(If you are going to put a lining in the bag, now continue to the chapter sewing the lining into the bag).

If you are not going to make a lining in the bag, we will now sew the red loops around the D rings **(see picture 50)**, and then we sew it in the middle to the intermediate piece of the bag **(see picture 51)**, then you sew the end of the shoulder strap to the swivel snap hooks **(see picture 52)**

(picture 50)

(picture 51)

(picture 52)

Now you can snap the hooks to the D rings and put the Strengthening for the bottom on the bottom of the bag and your bag is ready to use. **(see picture 53)**

(picture 53)

Sewing lining into bag

On my You Tube channel [Akhaakwerkjes-free crochet patterns](#) In a tutorial from Ming tāsje/My Bag in part 7 I will show you how to sew the lining into the bag.

We are going to stitch all the parts along the edge with a zigzag stitch on the sewing machine, This prevents the fabric from fraying. (see picture 54 and 55)

(picture 54)

(picture 55)

Then we pinned the middle part to a bag part (see picture 56, 57 and 58)

(picture 56)

(picture 57)

(picture 58)

After pinning the middle part to the bag part, lace up the part you pinned so that you are not bothered by the pins while sewing (see picture 59 en 60, Tip!!! Use a thread with a significantly different color, so that it can be easily removed after you have sewn the parts together).

(picture 59)

(picture 60)

Now sew the parts together ± 0.39 inch (1 cm) along the edge. Pay attention at the corners to pull the fabric straight so that you do not accidentally double stitch it. **(see picture 61 and 62)**

(picture 61)

(picture 62)

You remove the lace thread and now you are going to pin the other part of the bag to the intermediate piece. **(see picture 63, 64 and 65).**

(picture 63)

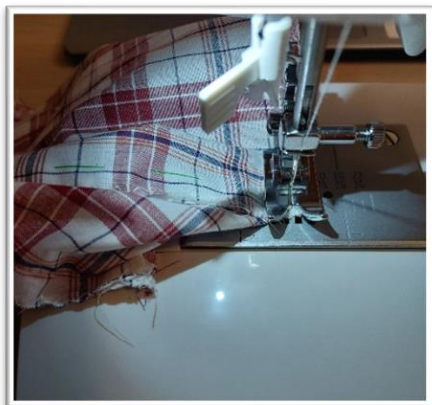

(picture 64)

(picture 65)

After pinning, lace this section as well, and sew it together ± 0.39 inch (1 cm) along the edge. Be careful at the corners to pull the fabric straight so you don't accidentally double-stitch it **(see picture 66 and 67)**. After sewing this part, now also remove the lace thread. And now you have sewn a nice little pocket that fits inside the bag. **(see picture 68 and 69)**

(picture 66)

(picture 67)

(picture 68)

(picture 69)

Attention!! when placing the lining in the bag make sure the stitching line is placed against the crocheted bag, so that when you look into the bag to look against the beautiful part. (see picture 70 and 71).

(picture 70)

(picture 71)

Now we are going to fold the edge of the lining outwards so that it is between the crocheted bag and the lining and you pin this edge. Then you turn the bag inside out and lace up the edge of the lining to the edge of the crocheted bag. (see picture 72, 73 and 74).

(picture72)

(picture 73)

(picture 74)

Then sew the lining to the bag **(see picture 75)**, Once you have sewn the lining in place take out the lace thread and you can sew if necessary another mm from the edge **(see picture 76)**.

(picture 75)

(picture 76)

We will now sew the loops for the D rings into the bag. You fold them in half lengthwise and pin them in place **(see picture 77)**, you do this with both patches for the loops **(see picture 78)**.

(picture 77)

(picture 78)

Lace up the part you pinned and sew it in place with the sewing machine **(see picture 79)**, then turn the loops inside out so that the stitching edge is on the inside **(see picture 80)**.

(picture 79)

(picture 80)

You fold the end of the loops inward and pin them, and lace the part you pinned **(see picture 81)**, then stitch them all the way around about a mm from the edge **(see picture 82)**.

(picture 81)

(picture 82)

Then you pull the loops through the D rings and pin them **(see picture 83)**, stitch these in place under the sewing machine about 0.39 inch (1 cm) from the end of the loops **(see picture 84)**, and along this stitching edge you sew the loops into the bag, you pin the loops in the middle of the intermediate section and you let the stitching edge run parallel to the stitching edge of the bag **(see picture 85)**.

(picture 83)

(picture 84)

(picture 85)

And when you have sewn the loops, click the shoulder strap onto the D rings, the strengthening of the bottom you can cover it with the fabric you used for the lining. Your bag is ready!!! have fun with it.

Have fun with your bag
